

Installation Manual

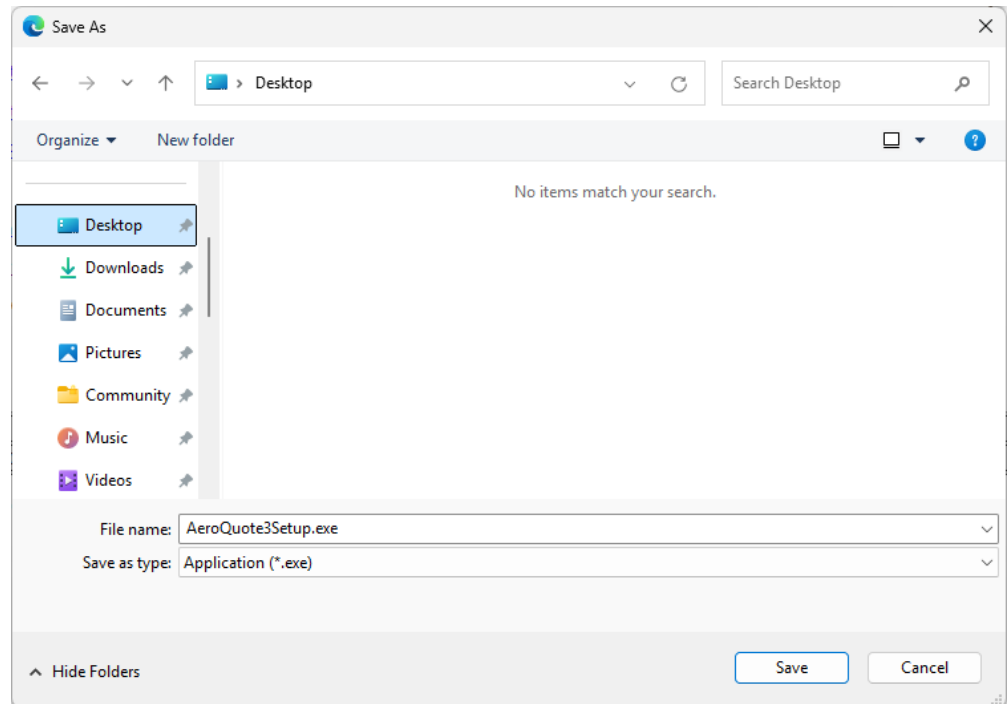

STEP 1: DOWNLOADING

The AeroQuote software is downloadable from the AeroSoft web site at www.aerosoft.biz. The download link is labeled "AeroQuote 3 Full Installation (Build 003)." Right click on this link, and select "Save Link As..."

A "Save As" dialog box will appear allowing you to select the location in which you want to save the AeroQuote setup program. It is recommended that you simply choose "Desktop" so that the program icon will be immediately accessible from your desktop.

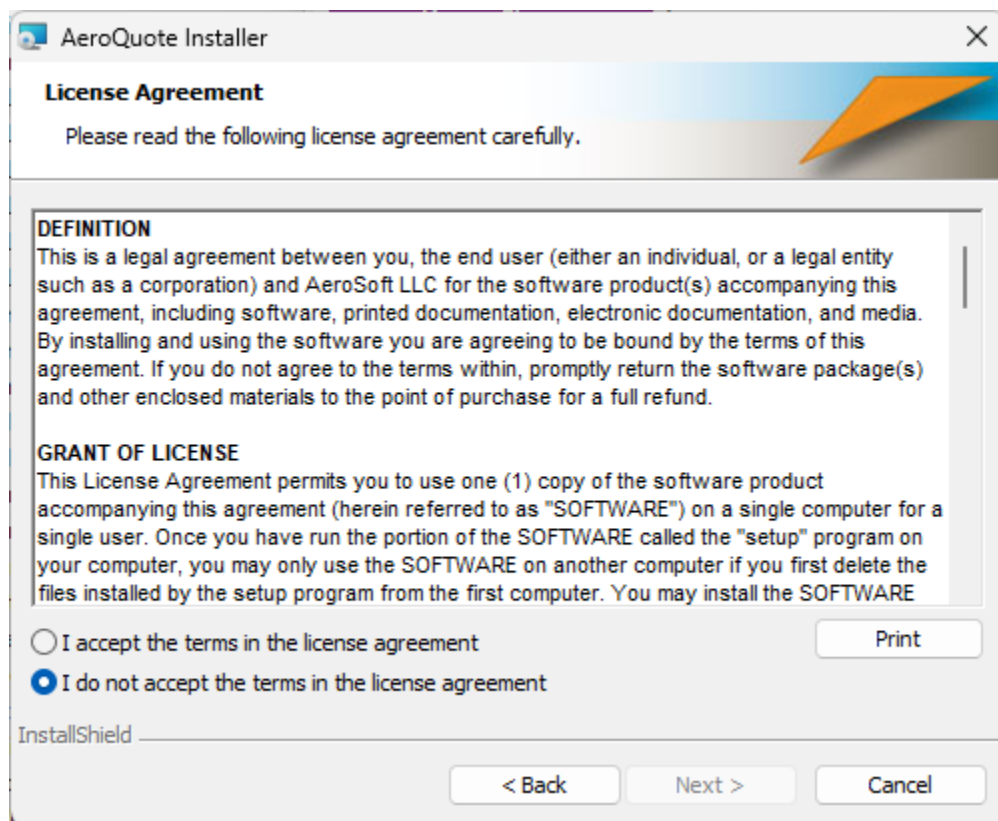

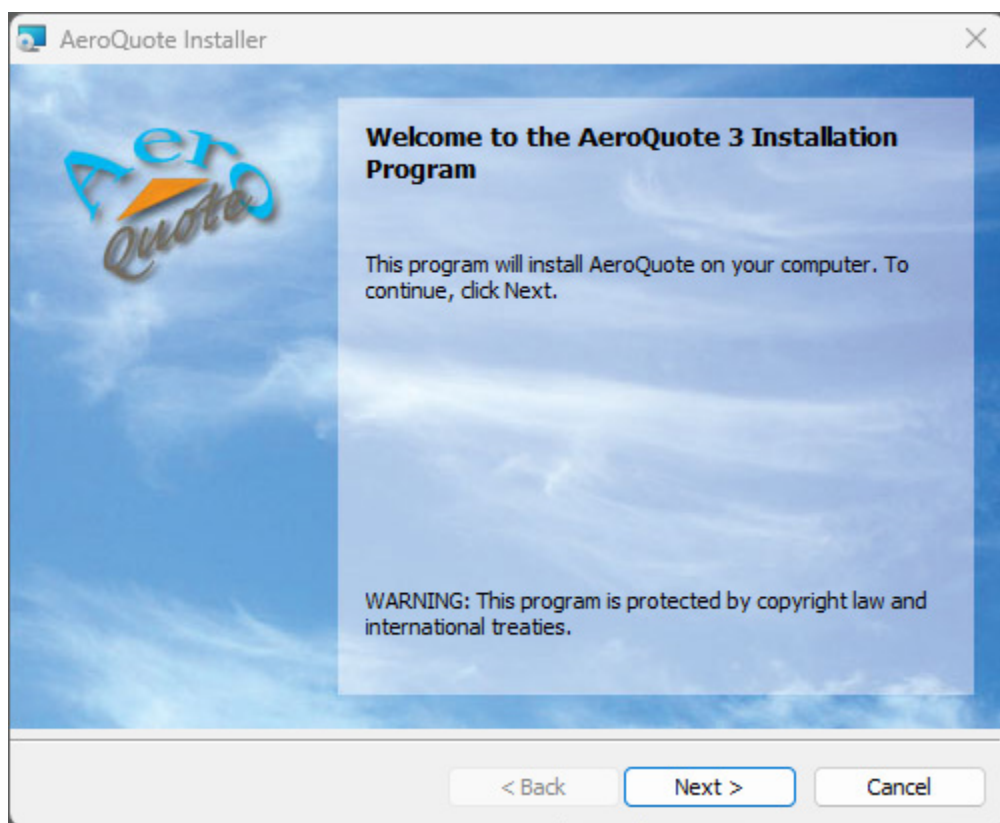

Once you have chosen the location, choose the Save button. The download will begin, and should take just a minute or two depending on your Internet connection speed.

Once the download has completed, an "AeroQuote3Setup" icon will appear on your desktop.

STEP 2: INSTALLATION

The AeroQuote installation phase will begin with a welcome screen. Choose the Next button to proceed.

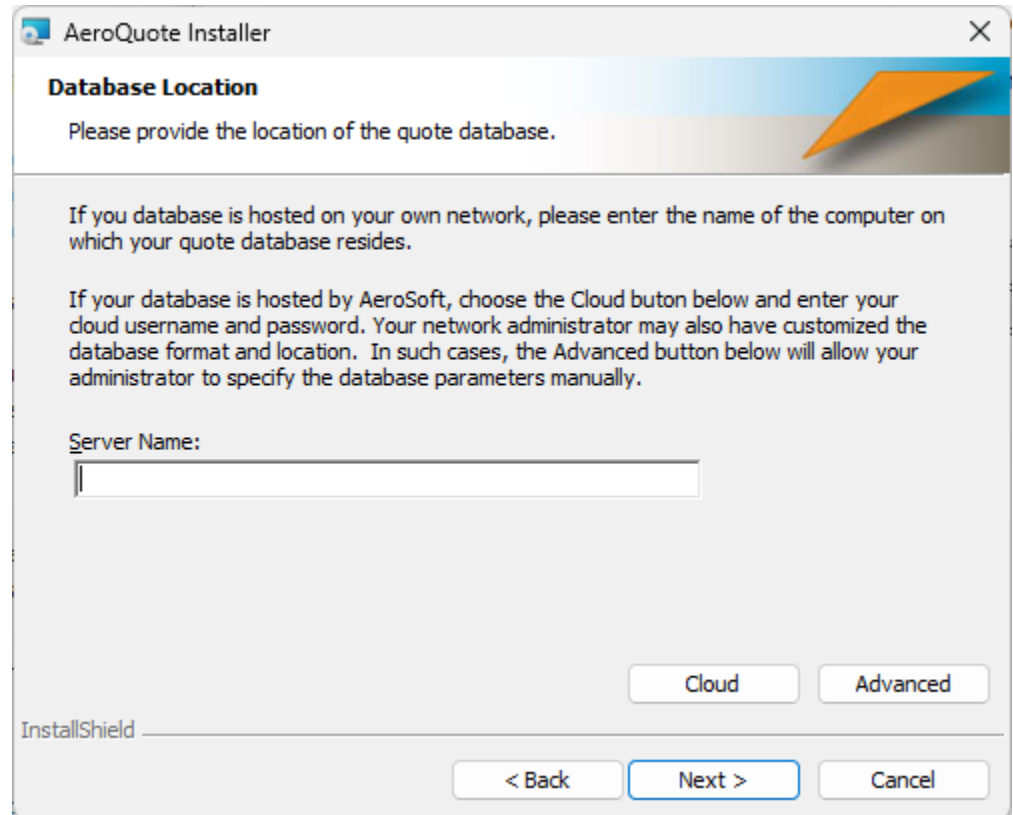

The License Agreement will now appear. When you have read and agree to the terms, choose the Accept button, then choose the Next button to continue.

You will now be presented with the Database Location screen. Here, you need to specify the computer on which the AeroQuote database resides.

If you do not know the computer name, please check with your network administrator, or the individual that installed the AeroQuote database.

If your organization utilizes the AeroQuote Cloud Database option, choose the Cloud button and enter your cloud option user name and password.

When finished, choose the Next button.

The screenshot shows the 'AeroQuote Installer' window with the 'Database Location' tab selected. The title bar includes the AeroQuote logo and the text 'AeroQuote Installer'. The main heading is 'Database Location' with a sub-instruction: 'Please provide the location of the quote database.' Below this, two paragraphs of text provide instructions for local and cloud database setups. A 'Server Name:' label is followed by a text input field. At the bottom right, there are 'Cloud' and 'Advanced' buttons. The bottom of the window features a 'Next >' button, a '< Back' button, and a 'Cancel' button. The 'InstallShield' logo is visible in the bottom left corner.

AeroQuote Installer

Database Location

Please provide the location of the quote database.

If you database is hosted on your own network, please enter the name of the computer on which your quote database resides.

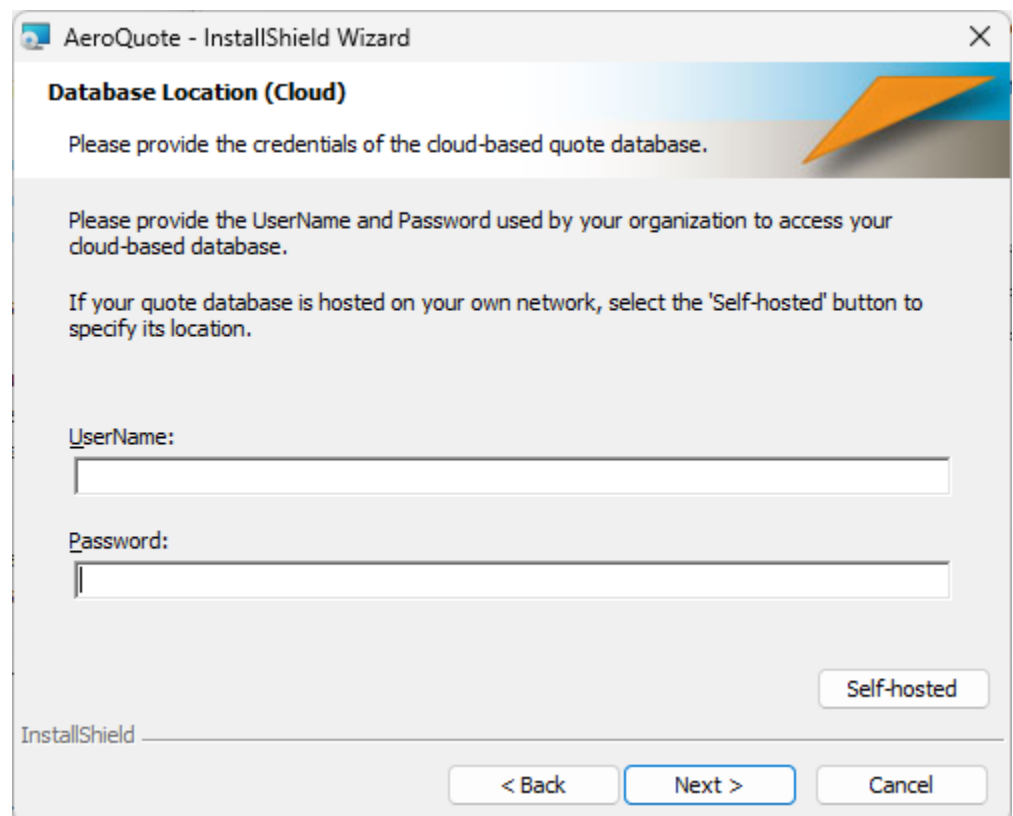

If your database is hosted by AeroSoft, choose the Cloud button and enter your cloud username and password. Your network administrator may also have customized the database format and location. In such cases, the Advanced button below will allow your administrator to specify the database parameters manually.

Server Name:

The screenshot shows the 'AeroQuote - InstallShield Wizard' window with the 'Database Location (Cloud)' tab selected. The title bar includes the AeroQuote logo and the text 'AeroQuote - InstallShield Wizard'. The main heading is 'Database Location (Cloud)' with a sub-instruction: 'Please provide the credentials of the cloud-based quote database.' Below this, two paragraphs of text provide instructions for cloud and self-hosted database setups. There are 'UserName:' and 'Password:' labels, each followed by a text input field. At the bottom right, there is a 'Self-hosted' button. The bottom of the window features a 'Next >' button, a '< Back' button, and a 'Cancel' button. The 'InstallShield' logo is visible in the bottom left corner.

AeroQuote - InstallShield Wizard

Database Location (Cloud)

Please provide the credentials of the cloud-based quote database.

Please provide the UserName and Password used by your organization to access your cloud-based database.

If your quote database is hosted on your own network, select the 'Self-hosted' button to specify its location.

Password:

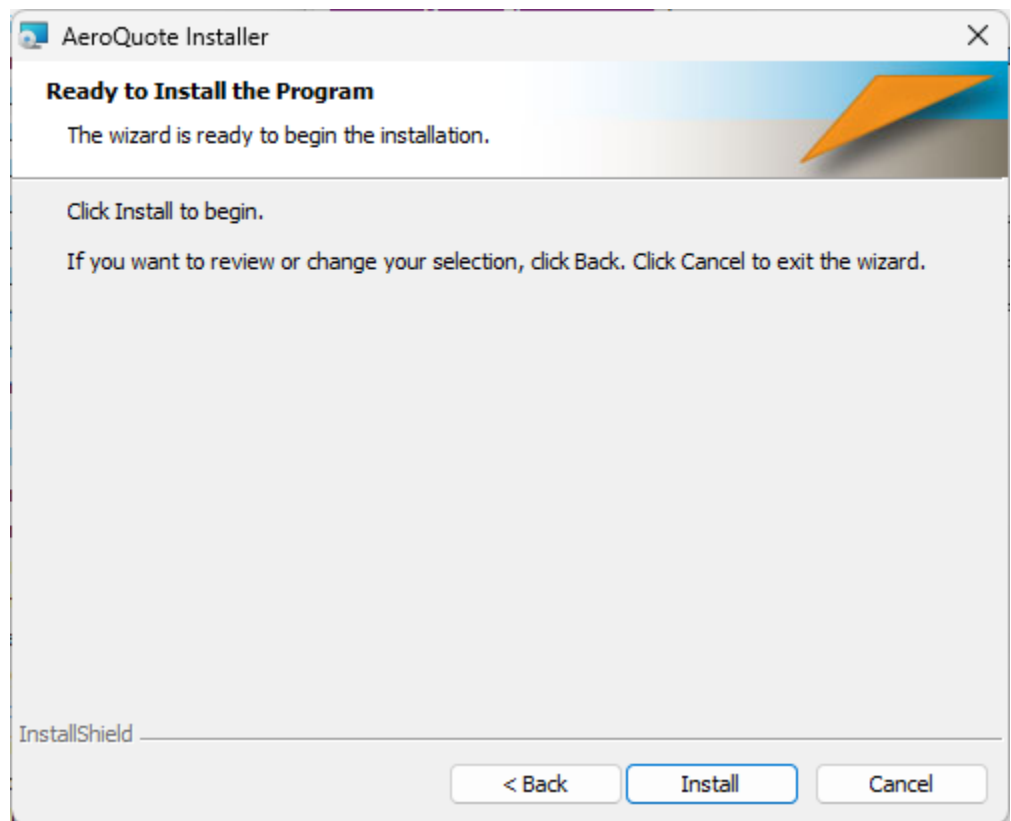

Self-hosted

InstallShield

< Back Next > Cancel

Lastly, the Ready to Install screen will appear.

Choose the Install button to begin the installation. This should normally take only a minute or two.

After the installation completes, you may delete the "AeroQuote3Setup" icon from your desktop. The installer will create an "AeroQuote" icon used to run AeroQuote. Be sure not to delete this icon. Delete only the icon labeled "AeroQuote3Setup".

The first time you run the AeroQuote program on a computer, it will prompt you for your Agency ID. If you do not know your agency ID, please contact AeroSoft for assistance.
